**168** service users exercised regularly with power-assisted machines

*" I just want to say how wonderful BASIC has been to my father, it's given him his life back. It's given him a purpose, going to the gym everyday to meet people, he's really come out of his shell since he had a stroke. Initially when he went there he was in a poor state, now he regularly walks 2 to 2 and a half miles a day, there's no stopping him ...thank you so much BASIC for all you have done"*

**133** service users accelerated their physical and cognitive recovery using innovative virtual reality technology

*"Being able to walk whilst attached to a harness was such a fantastic experience, it gave me freedom I haven't had before. I knew I couldn't fall which gave me a confidence and reassurance to keep walking in a safe environment. Exhilarating and exciting and later exhausting but so worth it!"*

**106** service users improved activities of daily living

*" Since regularly attending BASIC I have noticed a significant improvement in my wellbeing..my financial situation has become more stable. I have come to a deeper level of understanding of traumatic brain injury. My psychological concerns have been addressed "*
